PROFILE

Social anthropologist turned full-stack web developer with 6+ years of experience in project development, management, and implementation. Notable achievements include establishing an interdisciplinary network to address issues related to FGM/C in the greater Munich area. Proficient in a range of technologies including HTML, CSS, JavaScript, MERN stack, SQL, and more. Eager to contribute my skill set to a web development role, bringing a blend of problem-solving acumen, technical expertise, and a passion for socially meaningful projects.

English - Native
German - Native
French - Proficient

WEB DEVELOPMENT PROJECTS

mFlixApp

Personal project, CareerFoundry, Germany (online) June - July, September 2023

- Developed a RESTful API using Node.js, Express, MongoDB, and Mongoose, ensuring secure user authentication and efficient CRUD operations on 'movies' and 'users.'
- Thoroughly tested and documented the API for optimal performance, deploying it on Heroku for scalability.
- Utilized the API to create responsive single-page applications (SPA) with React (React Bootstrap, hosted on Netlify) and Angular (Angular Material, hosted on GitHub Pages). This provided users with features such as registration, profile management, and favorite movie curation.

Event (Meet) App

Personal project, CareerFoundry, German (online) August 2023

- Developed a Progressive Web App (PWA) using React.js to simplify event discovery for users.
- Leveraged AWS Lambda and the Google Calendar API, providing an intuitive platform for exploring diverse events and ensuring a secure, personalized experience through Google Authentication.
- Implemented Test-Driven Development (TDD) using Puppeteer and the React Testing Library to enhance the app's reliability and functionality.

WORK EXPERIENCE

Freelance Translator

Remote 2005 - Present

- Medical translations from German to English for diverse clients, including embassies, health centers, individuals, and hospitals, earning a reputation for accurate, fast, and reliable translations.
- Managing work processes and coordinating between other translators and hiring entities, ensuring reliable workflow and communication.

Project Manager

Wüstenrose, IMMA e.V., Munich, Germany March 2021 - June 2022

- Led FGM-C prevention & care project in Munich, navigating complex regulations and extending project duration. Established a network, fostering collaboration among 25-30 entities. Facilitated and conducted workshops & info sessions for 100 individuals, contributing to widespread impact.
- Promoted intersectional approaches in networking and symposiums. Panelist at Green Party event, elevating recognition and advancing the cause.
- Managed reporting and monitoring, ensuring continuous project success. Utilized data-driven reports for effective outcomes.

Co-Project Manager

Wüstenrose, IMMA e.V., Munich, Germany January 2020 - June 2022

- Co-managed a workshop project, securing partnerships for 110 annual workshops on gender equality and self-determination. Executed successful sessions, fostering communication, critical thinking, and self-reflection.
- Utilized reporting and monitoring, including anonymous surveys, to assess workshop impact. Gathered data, developed and tested diverse methods, and collaborated with trainers for optimal results.
- Led efforts to promote the organization, expanding outreach, and faced higher demand post-COVID regulations than pre-COVID.

Trainer

Freelance September 2022

Coach

Businettes Hackathon August 2020

Trainer (Freelance)

Wüstenrose, IMMA e.V., Munich, Germany June 2019 - December 2020
